DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 7/28/04 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 17-23 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or suggest, inter alia, a semiconductor device comprising: a plurality of first terminals for capacitor connections; a second terminal for supplying a power supply voltage; a third terminal for supply a ground voltage; and a voltage booster circuit connecting the first, second and third terminals, a plurality of N channel transistors connected in series between the input terminal and the output terminal, a plurality of first P channel transistors each of which connected with corresponding ones of the plurality of N channel transistors in parallel, and wherein the plurality of first terminals are respectively connected to first electrodes of corresponding ones of the N channel transistors and first electrodes of corresponding ones of the first P channel transistors corresponding to the corresponding one of N channel transistors, wherein each of the N channel transistors is controlled to be in a conductive state different from a conductive state of an adjacent one of the N channel transistors, and
